## CLEAR TOPTAPE

Item no. EV-CAT

### Product Information

The Clear Toptape is an application tape, also known as transfer tape, that is a transparent polyethylene film specifically designed for applying lettering and logos. The tape is versatile and can be used with all types of vinyl films. The adhesive used in the tape is resistant to plasticisers and provides a strong initial tack to ensure a secure application to the vinyl film.

Furthermore, the tape can be easily removed without leaving any residue, even after being left for a considerable amount of time. The film is highly conformable to irregular surfaces, ensuring that it adheres well to any surface it is applied to, while also providing a high stretching strength for accurate positioning of the work.

Moreover, the adhesive is coated in a unique manner that makes it easy to unroll the tape, thereby eliminating any static issues that may arise during the handling process.

### Shelf Life

2 years when stored in the original packaging between 20°C and 25°C at 50% relative humidity.

### Technical Data

Carrier	LDPE film
Adhesive	Acrylic
Adhesion	1.20N/cm (+/- 10%)
Thickness	0.11mm (+/- 5%)

### Standard Dimensions

305mm (wide) x 100m (long)  
610mm (wide) x 100m (long)  
1220mm (wide) x 100m (long)

### Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC) No. 1907/2006 and is available on request. This product is not hazardous with regards to transportation legislation. Neither does it contain substances that are hazardous to water within the meaning of the federal water act. After use, dispose of the waste product in accordance with local/national authorities.
