

### Product Information

Introducing the ShowUp 500, a white textured film with a thickness of 500 microns. This super flat, printable PVC polyester hybrid film is specifically designed for creating pop-up graphic media and printable banners. It is commonly utilized in exhibitions and point-of-sale displays.

The ShowUp 500 is a synthetic product with extreme flattening properties, ensuring its stability during use. It features a scuff-resistant satin crystal finish, eliminating the need for additional lamination. This characteristic not only speeds up production but also reduces costs.

With its vibrant color reproduction capability, this film delivers striking visuals. It is equipped with a grey light-stopping backing for enhanced image clarity. Additionally, the film has a matte friction back coating that aids printing alignment, particularly in multiple-drop presentations.

### Shelf Life

1 year when stored in the original packaging between 20°C and 25°C at 50% relative humidity.

### Recommendations

Please ensure the print is perfectly dry before laminating.

We suggest to let the material dry for at least 48 hours before after printing.

### Technical Data

Carrier	Textured matt PVC/Polyester hybrid film
Total Thickness	500 $\mu$ (+/- 5%)
Inner layer	Grey PET Blockout
Ink Compatibility	Latex, Eco, Solvent, and UV

### Standard Dimensions

914mm (wide) x 50m (long)

### Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC). No. 1907/2006 and is available on request. This product is not hazardous with regards to transportation legislation. Neither does it contain substances that are hazardous to water within the meaning of the federal water act. After use, dispose of the waste product in accordance with local/national authorities.
